

Target Fund PCA 2000 (Closed 3/31/10)

As of 3/31/10

Investment Objective:

To provide the highest level of long term return consistent with an emphasis on retirement income generation, protection against inflation and lower relative risk.

Investment Strategy:

Invests in a diversified combination of mutual and separately managed funds using an asset allocation strategy uniquely designed for investors who retired around the year 2000. The fund will gradually become more conservative until it transitions to the PCA Harvester Fund allocation in Year 2010.

Investment Risk:

While an asset allocation strategy is a good tool to reduce portfolio volatility, all investments are subject to risk. This includes the PCA Target Retirement Funds. PCA 2000 – PCA Harvester Fund hold most of the underlying assets in fixed income investments. These funds are designed to generate income with lower relative risk compared to longer dated target funds. However, these funds are sometimes subject to periods of share price fluctuations. Those who are unwilling to accept price volatility should invest in a fund that guarantees a fixed level of income.

Fund Performance:

Target Fund Description:

Target Retirement Funds are designed to provide the maximum level of investment assistance for participants who have little interest, time or experience investing in the financial markets. Over the last several years, many investors have been attracted to the ease and simplicity offered through these funds.

The beauty of Target Retirement Funds is that on-going investment decisions are turned over to an experienced portfolio management team. Its goal is to create a portfolio that is properly diversified and adequately reflects the risk for an investor's current stage of life. Initially the team will carefully design a Target Retirement Fund to be more aggressive. Over time the fund will gradually become more conservative as investors approach their retirement date and beyond.

PCA Retirement & Benefits, Inc. (RBI) has designed twelve Target Retirement Funds that will assist our ministry partners by eliminating the guesswork and reducing the responsibilities of maintaining a proper portfolio mix. The professionals at RBI regularly monitor and adjust each Target Retirement Fund to provide investors with greater stability and reduced risk. To select the correct Target Fund for you, simply pick the fund closest to your retirement year, and then let the experts at RBI do the rest.

- Past performance does not guarantee future results. Due to enduring market volatility, a fund's current performance may be more or less than the result shown above.
- Investors should carefully consider each PCA Core and PCA Target Fund investment objective, investment strategy, risk factors, expenses and fees before investing. This and other information about the funds can be found in a fund fact sheet or in a prospectus by visiting our website www.pcarbi.org, or by calling PCA Retirement & Benefits, Inc. at 800.789.8765. Read the fund fact sheet or prospectus carefully before investing in a fund.
- Shares of the PCA Core and PCA Target Funds are not deposits or obligations of any bank, and are not guaranteed by any bank, are not insured by the FDIC or any other agency, and involve risks, including possible loss of the principal amount invested.
